

ANCHOR KITS

SPECIFICATION SHEET

As an add on to the BMP Turbidity Curtains, get everything you need in one convenient kit with a Danforth Anchor Kit. This anchoring kit includes **an anchor, chain, rope, two shackles, and two buoys**. Danforth anchors offer exceptional holding power for their weight, making them the industry leader in efficiency. Each Danforth fluke anchor is manufactured from high strength steel then hot dip galvanized for long lasting protection.

ANCHOR KITS

SPECIFICATION SHEET

Instructions:

- Connect the 12" anchor buoy to the bridle line and clip the other end to the turbidity curtain's connector plate.
- Clip the long anchor line's carabiner to the anchor rode chain and tie the other end to the 12" anchor buoy at the desired
- Clip the positioning/retrieval line to the anchor's retrieval point.
- Back the boat away while playing out the anchor line. Lower the anchor carefully using the positioning/retrieval line until it reaches the bottom.
- Tie the other end of the positioning/retrieval line to the 9" retrieval buoy so it floats above the anchor.

What's in the box:

- 1- Anchor
- 1- Chain
- 1- Rope
- 2- Shackles
- 2- Buoys
